

**Environment of Care Standard 2.10: The organization identifies and manages its security risks.**

**Element of Performance 1: Security Plan**

**The hospital develops and maintains a written management plan describing the processes it implements to effectively manage the security of individuals served, staff and other people coming to the organization’s facilities.**

Evidence of Compliance	Evidence of Performance Improvement
<p>Plan describes processes for considering risks associated with presence, use of:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> hazardous materials</li> <li><input type="checkbox"/> chemotherapeutic agents and pharmaceuticals</li> <li><input type="checkbox"/> infectious materials and waste</li> <li><input type="checkbox"/> radioactive materials</li> <li><input type="checkbox"/> petroleum products</li> <li><input type="checkbox"/> pesticides</li> <li><input type="checkbox"/> solid waste</li> <li><input type="checkbox"/> hazardous waste</li> <li><input type="checkbox"/> Plan describes processes, procedures for preparedness to address potential hazmat situations</li> </ul>	<p>Plan describes processes for:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Reducing use of hazardous, radioactive, infectious materials, petroleum products, pesticides</li> <li><input type="checkbox"/> Conserving energy and resources to preserve domestic resources for future Americans (sustainability) &amp; reduce reliance on foreign supplies.</li> <li><input type="checkbox"/> Reducing waste generation to minimize inappropriate use of confidential material</li> <li><input type="checkbox"/> Reducing waste generation to minimize potential for unauthorized access to the facility</li> </ul>
